

**Motor Learning and Memory**

**Student Name:** \_\_\_\_\_

Activity 1: Sort cards into two random piles Time: \_\_\_\_\_

Activity 2: Sort cards into two piles based on color Time: \_\_\_\_\_

Activity 3: Sort cards into four random piles Time: \_\_\_\_\_

Activity 4: Sort cards into four random piles based on suit Time: \_\_\_\_\_  
(hearts, diamonds, spades, clubs)

Time taken to sort cards	Activity 1	Activity 2	Activity 3	Activity 4
180 seconds				
150 seconds				
120 seconds				
90 seconds				
60 seconds				
30 seconds				

What happened to the time it took to do the different sorting tasks?

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Why do you think this happened?

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

What is one way to make your time faster for a task?

\_\_\_\_\_
