

Name _____

Pre-Research Activity Ethics of Dissection

Respond to each of the following statements by indicating how sure you are about it. When done, conduct your research by reading the assigned article and conducting interviews of six adults. Write a paragraph stating your position, and outlining your reasons.

1. **Ethics** is the field of science in which problems are solved through thought experiments.

Strongly Agree

Unsure

Strongly Disagree

If unsure, why?

2. **Dissection** is cutting something up.

Strongly Agree

Unsure

Strongly Disagree

If unsure, why?

3. In academics, **argument** has a meaning that differs from how the term is used in general conversation. An academic argument has an agreed-upon logical structure that is often not true in informal disagreement.

Strongly Agree

Unsure

Strongly Disagree

If unsure, why?

4. **Validity** is a type of scientific evidence.

Strongly Agree

Unsure

Strongly Disagree

If unsure, why?
